IDENTIFIERS	Illinois; *Illinois Community College System

ABSTRACT

This document contains a report on student enrollment at the end of the 2003 winter quarter and spring semester at the College of DuPage. The report is based on results of the fiscal year survey that shows both the headcount enrollments and the full time equivalent enrollments increased statewide as compared with the same term a year prior. The spring semester headcount increased from 358,511 as compared to 344,466, which equates to a 4.1% increase in students. The full-time equivalent students also increased from 179,868 to 190,439, which is an increase of 5.9%. It should be noted that after the significant increase in enrollment last year, spring headcount enrollments registered another major increase in the next year as well. Full-time equivalent enrollment increased in the next year as well. Of the 48 colleges used in the study, 34 experienced increases (1% or more) in head count. Only six colleges showed a decrease in the number of students (less than 1%). The study also charts the change the enrollment of full-time equivalent students over a 5-year period, which shows increases for 42 colleges, little or no change for 3 colleges, and decreases for 3 colleges. Illinois Community College Board

FISCAL YEAR 2003 SPRING ENROLLMENT REPORT

February 28, 2003

Each spring, community colleges report their opening spring term enrollment figures to the Illinois Community College Board on a brief spring enrollment survey. These figures reflect only those students enrolled in credit courses that were operational on the census date (last day for course registration for regular classes). Enrollment for classes beginning after the census date are reflected in the annual enrollment counts. The following report summarizes the survey results.

Background. This report contains information on student enrollments as of the end of registration (usually the 10th day of the term) for the spring semester and for the winter quarter at the College of DuPage, the one district on the quarter system. Results of the fiscal year 2003 survey show that both headcount enrollments and full-time equivalent (FTE) enrollments increased statewide compared with the same term one year ago. The spring semester headcount was 358,511 compared to 344,466 (an increase of 14,045 or 4.1 percent) last year. FTE was 190,439 compared with 179,868 a year ago (an increase of 10,571 or 5.9 percent).

After experiencing a significant increase last year, spring headcount enrollments registered another substantial increase this year. FTE enrollments also registered a relatively large increase this year following a similar increase last year.

Table 1 contains comparative spring tenth-day enrollments for the last five years. Fiscal year 2003 spring headcount totals and FTE enrollments are at the highest levels in the past five years. Figure 1 on the next page illustrates a comparison of headcount and FTE trends from 1999 - 2003.

Table 1

SUMMARY OF OPENING SPRING ENROLLMENTS IN
ILLINOIS PUBLIC COMMUNITY COLLEGES FROM 1999 TO 2003

	1999	2000	2001	2002	2003
Headcount	321,379	328,705	328,538	344,466*	358,511
Percent Change	-2.0%	2.3%	-0.1%	4.8%	4.1%
FTE	169,098	170,170	168,841	179,868*	190,439
Percent Change	-1.7%	0.6%	-0.8%	6.5%	5.9%

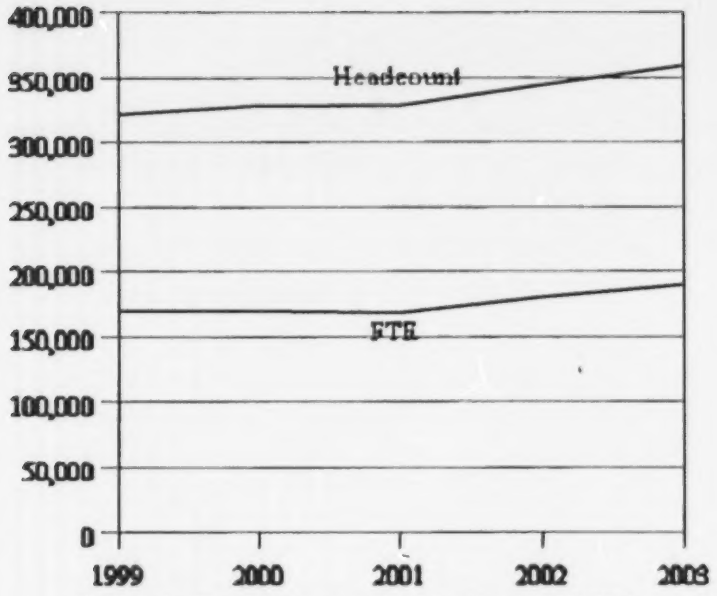

Fig.1. Spring Term Headcount and FTE Enrollment, 1999-2003

Table 2 provides a comparison of fiscal year 1999 through fiscal year 2003 spring headcount enrollments for each community college. Of the 48 community colleges, 34 colleges experienced increases (1.0 percent or higher) in headcount, while six exhibited decreases (1.0 percent or higher) during the past year. Eight colleges experienced little or no change (less than 1.0 percent) over the last year. Table 3 contains a comparison of FTE enrollments for the five-year period. FTE increases were reported by 42 colleges, decreases by three, and three colleges indicated little or no change.
